Meserbe Chroniele. WARREN, WEDNESDAY, NOV. 14.

Release of Passmore Williamson. The force of public opinion has at last forced Judge Kane to release his victim, and Passmore Williamson is again free. A more complete triumph on the part of defeat on the part of the Judge, was never witnessed.

Williamson was first charged with contempt of court on account of his return upon the writ of habeau corpus, the only ground of the charge was, that in declarconstructive contempt of the Court. Mr. both Houses of the Legislature. Williamson then asked leave o amend the return, so as only to state the fact usual. that the alleged slaves were not under his austedy at the time of the service of the the high-handed outrage upon him deeply stirred the wrath of the people. The indignation and scorn which gathered in the faces of all the people, and the growing consciousness of the contempt of his fellow citizens, became too heavy - burden for the unrighteous judge, and he was forced at last to come forward and make an unconditional surrend r. Mr. Williamson was brought into court, and the identical answer which he made when first arrested, is suddenly found to be allsufficient; the contemp is purged, and he is set at liberty . When the District Attorney attempted to force him into an admission of the legality of his first imprisonment, the nervous Judge would run no risk of another collision with the injured man, but snubbed the attorney. made him withdraw his objectious, and declared that the answer already given was enough.

This result is a miumph, not only for and Ohio against him. Mr. Williamson, but for free principles, and fer our republican institutions. It shows that no outward force is necessary to make the public will respected, but when brought to bear upon a tyrannical official, no matter how high his position, fraud, nearly every town in the county dent of the London Chariwari writes that be must quail before its silent and peaceful, but resistless power.

Mr. Williamson has, since his release, Mr. Williamson upon the writ could be to be truly Democratic. construed into contempt, will then receive a full examination and a judicial questions, but we trust that a judicial rebuke will be given to Judge Kane, of their courts an engine of despotic tyranny.

Democratic Creed. ARTICLE No. 2 -- Peace, commerce and honest triendship with all nations; en- speech. tangling alliances with none.

Honest friendship with all nations, according to the Patent Democratic Dictionary, means to bully and frighten Spain into selling Cuba, and failing in this, to wink at the sailing of armed ships, from ports of the United States, conveying Fillibusters enlisted in the United States, and all the munitions of war, for the avowed purpose of making a piratical attack upon a nation at peace with this Government.

Territories to administer their domestic

In order to carry out this principle in band of ruffians from Missouri, enters foreign votes, and in direct opposition to a large majority of the citizens of that territory, makes laws which disfranchise Patent Democratic Administration lends these acts its countenance.

Grand Enterprise. Among the enterprises lately projected, not the least starting in its magnitude, is Bay, (Lake Huron,) to Lake Ontario. Toronto is the propo ed point of the Lake Ontario terminus. The canal is to be of passage of vessels of one thousand tons summit will be fed is 470 feet above Lake Ontario, and 110 feet higher than
